

CAFE FLEET SERVICES

Vehicle and Equipment Maintenance Services – Fleet Services offers a staff of highly trained certified technicians, up to date diagnostic equipment and a fleet maintenance program that tracks all services and can provide vehicle owners a detailed report showing the cost of operation and maintenance service history. We offer a full-service maintenance and repair facility for all CAFE vehicles and equipment. Rates are a subsidized break-even rate and will remain the same as last year to efficiently support CAFE efforts. We strongly encourage this service to be utilized for all CAFE vehicle and equipment services.
